

SMOKING BAN

The Royal Decree of 13 December 2005 prohibits smoking in public places from 01/01/2006.

Public places are all places accessible for the public.

Given Royal Decree shall enter into force on 01/01/2006 together with the Royal Decree of 19/01/2005 which is to guarantee the protection of employees from tobacco smoke.

In Kortrijk Xpo the possibility is provided to light a cigarette outside of the buildings.

At the entrances 'Noord' (*North*) and 'Zuid' (*South*) a covered smoking area is provided and ashtrays are installed to make it possible to smoke outside or put out cigarettes when entering.

Inside and outside of the buildings visitors are reminded that a complete smoking ban is in force.

Organisers can - dependent of the concept of the event - provide smoking areas at other places, but always outside the buildings.

From 01/01/2007 the general smoking ban enters into force in hotels, restaurants and cafés.
